Consumer Decision-making: An Annotated Bibliography A Collection Of Six Bibliographies

APA Format for Annotated Bibliographies

Updated for 5th Edition, 6/13/02

For an annotated bibliography, use standard APA format for the citations, then add a brief abstract for each entry, including:

- 2 to 4 sentences to summarize the main idea(s) of the item, and
- 1 or 2 sentences to relate the material to your research topic and/or to evaluate the material.

The formatting for this sample bibliography is modeled on the annotated examples in the APA Publication Manual, 5th edition, pp. 370-375.

Basic APA Style Format for an Annotated Bibliography

Format your citations in the same manner as for a normal reference list, then follow these instructions for adding an annotation.

1. Double space the entire bibliography, including within the citations and annotations.
2. **Hanging Indents** are required for citations in the bibliography, as shown below. That is, the first line of the citation starts at the left margin. Subsequent lines of the citation are indented 4 spaces.
3. At the end of the citation, press the **Return Key** to drop down to the next line (double spaced). Do not add a blank line.
4. The annotation is indented as a block, 2 additional spaces.
5. The right margin is the normal right margin of your document.
6. In a long bibliography, organize your entries by topic, such as "Multiple Intelligences". See below.
